

## Guidelines for Open Access Publication Funding

---

With our Open Access Publication Funding *iQbio* grants a fixed allowance for the publication of research results via open access for PhD students and postdocs that perform interdisciplinary research in the profile area 'Structure and dynamics of Life'.

Applications can be submitted continuously. The following requirements hold when applying for the Open Access Publication Funding:

- Only PhD students and postdocs who are registered with the GRADE Center *iQbio* are eligible for funding.
- Only **peer-reviewed Open Access** publications will be funded up to **2.000 Euro per year and applicant**.
- Before applying with the GRADE Center *iQbio* you have to submit an application to the University Library (UB) for support of an Open Access publication.
- The applicant has to be the first author (in the case of individual publications) or first author/editor (in the case of special issues/book chapters).
- The GRADE center *iQbio* has to be mentioned as a sponsor in the acknowledgments.
- Within 4 weeks after the publication the open access link has to be send to the coordinator.

The Open Access information of the UB can be found here:
